Good day little mice...

You seek the treasure of Automaticity?  
You will never find it!  
For I hold the key to your freedom.  
So unless you escape my maze you will  
forever be trapped in the endless anxiety  
of math!

How do you escape? \*chuckle\*... well well, lets see if you can!

You will see RED SYMBOLS  placed all over my maze.

Select each one and attempt my MATH TRAPS.

You will receive a CODE at the end of each trap.

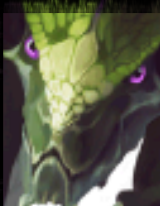

RECORD this code as it can be the key to your escape.

Come back to me once you attempted each trap and received ALL 6 codes.

GOOD LUCK LITTLE MICE
